DODGE'S PATENT REAPER AND MOWER

AND SELF-RAKER.

This machine has met with the most complete success. In every section where it has been introduced it has taken precedence over those machines which have formerly ranked as the best. It is a superior Self Raker and a superior Mower.

A careful examination will convince any one of its superiority over all others, in simplicity, strength and durability. As a Self-raking Reaper it has no equal in our country.

The Dodge rake is attached to no other machine in the United States, except to this machine. Built by the DUDLEY & STEVENSON Manufacturing Co., Auburn, New York.

READ THE NOTICE OF THE COMPANY TO OUR AGENTS:

Having had a number of infringements upon the DODGE'S SELF-RAKE attached. We ask you to furnish us the names of all persons vending or purchasing machines with the Self-Rake attached to any person or persons to manufacture said SELF-RAKE, or any part thereof, and will prosecute to the full extent of the law all persons manufacturing, selling or using said Self-Rake except of our own manufacture.

JOHN A. LOOS, President.

We have that confidence in this machine that we are willing to take or exchange a machine test it with any other machine they may wish, and have the one that gives the most satisfaction.

STILL AHEAD!

HOFFHEINS'

REAPER & MOWER,

One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, as I will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work, in all kinds of grass and grain.—It cuts long and green grain admirably, which is a great item in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 6 feet 3 inches in grain; 6 feet 10 inches in grass; has a steel cutter bar, with wrought iron guards; it can be used as a single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHERMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known RELIANCE RAKE, the best rakes ever introduced. We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

ALSO, THE KESSLER AND EXCELSIOR FANNING MILLS, the old standborough has improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle shakers.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel; or at my residence, 3 miles from Gettysburg, between the Emmitsburg road and the Baltimore pike.

Medical.

Baltimore Lock Hospital.

DR. JOHNSTON,

Physician of this celebrated Institution, has Discovered the most Certain, Speedy, Pleasant and Effectual Remedy in the World for all

DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, Gener al Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Diseases of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the Victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, aware of Physical Weakness (loss of Procreative Power—Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS,

IMPOTENCY, LOSS OF POWER,

Immediately Cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those failing into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.

Relief in six Hours! No Mercury!

Persons Reclaimed by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London. Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the back and limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of life by the consequence of deviating from the path of nature, and indulging a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure at length discovers the *fatal* error he has committed, he often attempts to conceal it from the world, for fear of discovery deters him from applying to those who, from education and respectability, can alone befriend him. Delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, disagreed nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his dreadful sufferings, by sending him to that undiscovered country "from whence no traveller returns." It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their nostrums or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, despair leaves him with ruined Health tough over his galling disappointment.

To such, therefore, DR. JOHNSTON pledges himself to preserve the most inviolable Secrecy, and from his extensive practice and observations in the great Hospitals of Europe, and that in this country, viz: England, France, Philadelphia, and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this Establishment year after year and the numerous important Surgical Operations performed by Dr. Johnston witnessed by the representatives of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

BETTER LATE THAN NEVER.

Life is a race where some succeed,
While others are beginning;
'Tis luck in some, in others speed,
That gives an early winning;
But if you chance to fall behind,
Ne'er slacken your endeavor;
Just keep this wholesome truth in mind—
"'Tis better late than never!"

And if you keep ahead 'tis well,
But never trip your neighbor;
'Tis noble when you can excel,
By honest, patient labor;
But if you are outstripped at last,
Press on, as bold as ever;
Remember, though you are surpassed,
"'Tis better late than never!"

Ne'er labor for an idle boast,
Or victory o'er another;
But while you strive the uttermost,
Deal fairly with a brother;
Whate'er your station, do your best,
And hold your purpose ever,
And if you fail to do the rest,
"'Tis better late than never!"

Choose well the path in which you run—
Succeed by double daring,
Then, though the last, when once 'tis won,
Your crown is worth the wearing.
Then fret not if you're left behind,
Nor slacken your endeavor,
But ever keep this truth in mind—
"'Tis better late than never!"

AN EXPRESS MESSENGER STORY.

In the summer of 1863 I was serving as messenger on the British and American (now called Canadian) Express. My route lay between Portland and South Paris, though my office was in Norway, a mile and a half distant from the latter station, between which two points I traveled with my own team. As three and sometimes four lines of stages connected with the Grand Trunk road at South Paris, through all of which our express did business, my route was an important and a responsible one.

It was on Saturday, August 20th. I ate my dinner, and then went into the Portland office to get my freight and my orders for the country. After the porter had taken out the various articles consigned to my charge, Mr. Prindle, our agent, called me to his desk, and exhibited a package, directed to a party in South Paris, containing three thousand dollars.

"Do you know that man?" he asked me pointing to the superscription.

"Yes," said I.

"Do you know where he lives?"

"Yes."

"How far from your depot?"

"A mile and a half, I should think, on the old Rumford road."

"Well," he pursued. "I don't care to have this lay over at the depot, and you'd better deliver it yourself."

I told him I would do so.

I may here remark that we had no regular office at South Paris. It was my custom to deliver such matter as was consigned to parties living in the village, within a radius of half a mile or so, while parcels going beyond those limits, I usually left with the station master to be called for. [illegible] as Norway, it was understood by our patrons that we did not deliver express matter beyond the limits of the village corporation.

As I was leaving the office, I observed one of the porters, assisted by a clerk, lifting a soldier into the wagon of the Kennebeck Express. Said soldier's right leg was swathed in thick bandages from the knee to the toes, and he hobbled upon crutches; his uniform was worn and soiled, and he appeared to be one who had seen hard service.

"Poor fellow," said the clerk, as he met me upon the sidewalk. "He's got two minnie balls through his leg—wounded at Gettysburg. He started down from the International for the depot on his crutches, but he gave out here."

At that time, when the great battle was yet a thing of the present, a hero of Gettysburg was an object of interest to me; and I felt almost like taking off my hat to the war-worn and shattered veteran; but he had gained his seat, and was driven away before I had opportunity to salute him.

At the depot I saw my freight safely in the car, and after we had started I took a turn through the train. I found our Gettysburg hero in the forward car, occupying a whole seat, with the rim of his old slouched hat pulled down over his face, probably asleep. Poor fellow? He was weak and weary.

We arrived at South Paris at half-past three p. m., where I found my team waiting for me—a common express wagon drawn by a horse which I considered as rather superior to express horses in general. As the last package was placed in the wagon, I observed the veteran of Gettysburg hobbling toward me, on the platform.

I had strapped up the tailboard, and was on the way to my seat, when he addressed me:

"Say, my friend, which way ye going?"

"Just round the village, to deliver freight," I told him.

He looked disappointed.

"I was in hopes," he said, "that I should find somebody going up the old Rumford road a piece. My leg is about played out."

I remembered the package I had to deliver on the same road, and I told him if he didn't mind riding around through the village, I would take him as far as the old Jordan Place. He said that it would be a great help to him. So with the assistance of the station baggage master, I helped him to his seat. He was a large, heavy man, and as he seemed unable to help himself in climbing, the labor of hoisting him up was not a light one.

"I shall come down easier," he said, laughing.

"All right," I replied, as I took my seat by his side.

I made quick work of delivering my stuff in the village, and when we had struck the old road beyond I asked my companion his name. He said it was John Smith. Then I led him to tell me of his experience in the army, and more particularly at Gettysburg. He said he was a Maine boy; but was not in a Maine regiment, He was in Ohio when he enlisted, and joined a regiment in that State.

I asked him which one.

He told me the Forty-eighth.

This staggered me; I proceeded with my questions and ere long had gained from him all he knew of Gettysburg and more too.

I don't like to be sold; but I had been sold now, certainly. This man by my side was a humbug. In the first place, I know that the Forty-eighth Ohio was at Vicksburg, with Grant, while Gettysburg was being fought. And then I had heard the whole story of Gettysburg from wounded officers who had come from the field; and this man's story was not like the story they had told. I had made up my mind that the fellow was a "Sucker" or a "Stranger," when I was interrupted in my meditations by a sudden lurch of the wagon, one of the wheels having dropped into a slough-hole upon that side on which the war-worn and shattered hero sat. I expected, when I had recovered my own balance, to see him pitched from his perch; but not so. I saw that bandaged leg, which first had been as useless as a dead man's leg, suddenly straightened out; the swathed foot was planted flatly and squarely upon the board; and with a full pressure upon the disguised limb he held himself, and regained his equilibrium.

I pretended not to notice; but I had noticed and reflected. That right leg, so carefully nursed, was as stout, and as strong, and as free for use as my own. Had the fellow taken all this trouble of deception for the sole purpose of getting a ride? I could not believe it. Had he done it for the purpose of exciting sympathy that he might beg with better success? He did not look like a man prone to beg. Then why was it?

I had been in my present position of messenger nearly two years, and as I never went upon my route with more or less money entrusted to my care, I had learned to be suspicious. This man had been present when Prindle gave me the money package of three thousand dollars, and had probably overheard the agent's directions.—He meant to rob me, or he had come with me for that purpose. I looked into his face; and now that I regarded him no more as a war-worn veteran and hero, I discovered him to be an ugly and repulsive looking-person. And he was a powerful fellow, to boot—I shall say, almost twice as heavy as myself. But I was not to remain long in doubt.

We had entered a secluded part of the road, with a deep wood upon my left hand, when my companion drew a revolver from his pocket and pointed the muzzle towards me.

"Give me that pocket-book of yours!" he commanded. "Don't make no words!—Give it up or die! Quick!"

My pocket-book, beside the three thousand dollar package, contained full two thousand dollars belonging to parties in Norway. My instinct was born of office—I thought more of the property entrusted to my care than of myself. Just then I heard wagon wheels in the distance—something coming up behind us: Should I try and wait for the coming team, or should I try and gain the next house. Just beyond was the brow of the hill and at the foot of the hill a farm-house. I struck my horse with the whip, and as he leaped from under the blow the ruffian caught the reins with one hand and grasped my throat with the other, the pistol falling upon the footboard as he did so. As soon as he had given my cravat a twist or two that stopped my breath, he let go the reins and made a grasp for my pocket-book, thinking no doubt to seize it, then leap from the wagon and make for the woods. And this he might have done but for an accident, for he was a perfect Hercules in comparison with me.

When my assailant let go the reins I had sense enough to catch one of them—the near rein—and gave it a smart pull, which movement brought the horse so suddenly to the left that the wagon overturned, and we split out into a muddy ditch—I upon the top of the robber. In the course of my struggles my cravat gave way, and I was for a moment free: but the hardy rascal caught me by the leg, and had brought me to the earth, when the team that had followed us drove up, and I recognized Sumner Burnham and his son—two of the best detective officers in the State.

My friend had not thought of the approaching wagon; but he saw it now, and when he observed it had stopped, he would have leaped away; but now it was my turn to try the leg game; and I caught him by the ankle and tripped him up; and before he could regain his feet Otho was upon him, and very shortly afterward old Sumner himself, with his two hundred and eighty pounds of compact, leviathan corporosity, laid his huge hand upon the villain's shoulder.

"Well, well, my boy," said Burnham, when he looked into my hero's face, "I'm afraid I've interrupted another of your little games. What were you up to here?"—As he spoke he snapped a pair of handcuffs upon my war-worn veteran's wrists.

The latter gave one more look into the ruddy face of the Cyclopean officer, and then subsided.

I told my story in a very few words, after which Mr. Burnham informed me that my hero was a notorious rogue. He had never been to the war, but had enlisted four several times, and "jumped" a big bounty each time. He had also robbed a sutler at Augusta, and done various other wicked things. A telegram had been sent from Portland to Norway, informing Burnham the rascal was on the outward-bound train.

"The telegram did not reach me," said Mr. Burnham, "until after the train had left South Paris. I telegraphed to Bryant's Pond and to Bethel, and I was thinking to wait for the next freight train, when Dunham, the baggage master, told me of the man who had ridden off with you. When he had described him I knew you had my man; so I had only to find your track in order to be sure of his."

I will only add that my wagon was not seriously damaged, and while the officers turned back with the bounty-jumping, sutler-robbing hero, I drove on, and delivered the money-package safely to its owner; and furthermore, that from that day to this I have made it a rule never to allow a stranger a seat by my side upon my express wagon.

THE DEATH PENALTY IN MICHIGAN.—Several years ago capital punishment was abolished in the state of Michigan. Recently an effort has been put forth to revive the law. As a matter of course this has brought the whole question up for discussion in the press. The friends and opponents of the measure seem to be about equally divided on the score of numbers and ability. The statistics adduced, however, appear to bear out the anti-capital-punishment side of the case, in so far as the great end and aim, the suppression of crime, is concerned. These show that the murder rate has not merely increased, but has actually decreased since 1847, when capital punishment was abolished. In 1849-49, five were committed for murder, or seven per cent, of the whole number of convicts. In 1869, two out of 250 convicts were committed for murder. The average per centage for the twenty two years during which the death penalty was abolished, was one and onetenth per cent. During the fifteen years the per centage was two and seventenths: during the last eleven, one and three-tenths.

This decrease is something remarkable, and if there is no

The Star & Sentinel.

Friday, June 10, 1870.

Advertisers and others interested will bear in mind that the regular circulation of the "STAR AND SENTINEL" is much larger than that of any other paper published in the County, being read weekly by not less than 11,000 persons.

CHANGE OF FIRM.

The undersigned, as Administrator of the Estate of ROBERT GOODLOE HARPER, deceased, has sold to Hon. EDWARD MCPHERSON and A. D. BUEHLER Esq., the interest of Mr. Harper in the "STAR & SENTINEL" office, as of the 23d of May, 1870. The Book Accounts of the late firm of HARPER, MCPHERSON & BUEHLER will remain in the hands of D. A BUEHLER, Esq., to whom persons indebted for jobbing, advertising and subscriptions from the 23d of May, 1867, to the 23d of May, 1870, will make payment.

DAVID WILLS, Adm'r.

The firm of HARPER, MCPHERSON & BUEHLER having been dissolved by the death of Mr. HARPER, the undersigned have purchased his interest in the "STAR & SENTINEL," and will continue its publication, under the firm of BUEHLER & Co.,—the editorial management and general conduct of the paper continuing under the charge of DAVID A. BUEHLER, Esq.

We need hardly say that the paper will continue to support the general principles and policy of the Republican party, believing their successful maintenance essential to the welfare of the Republic—reserving, however, to ourselves, as independant journalists, the right to canvass freely the merits of men and measures.

The new proprietors propose, at an early date, to make further improvements in the paper, by putting it in a new dress, and no effort will be spared to keep the "STAR & SENTINEL" worthy of the generous support it has received.

EDWARD MCPHERSON,
A. D. BUEHLER.

JUNE 4, 1870.

THE municipal election at Washington, D. C., on Monday, resulted in the election of Mathew G. Emery, for Mayor, over Sayles J. Bowen, the present incumbent, by 3,220 majority. Bowen's re-nomination was resisted by a number of Republicans, dissatisfied with his administration. The Republican nominating Convention split—the majority nominating Bowen and the minority Emery. The latter was an active supporter of the Government during the Rebellion, and claims to be a Republican. Things were a good deal mixed up at the election. A majority of the Republicans supported Bowen, who had the prestige of the regular nomination. The mass of the Democrats united with the Emory Republicans. Strange to say, however, a number of the original rascal-nigro-hating Democrats, who denounced the execution of Mrs. Surratt and the Assassination conspirators as murder, voted for Bowen—Tom Florence and his paper cordially supporting him. The Emery men carry all but one ward and will control the City Councils.

THE General Assembly of the Presbyterian Church adjourned on Saturday, having harmoniously accomplished the work of union. The next session will be held in Chicago, in May, 1871.

The new "Synod of Harrisburg" will comprise the counties of Dauphin, Cumberland, Adams, Franklin, Fulton, Bedford, Huntingdon, Perry, Juniata, Mifflin, Northumberland, Montour, Columbia, Lycoming, Tioga, Potter, M'Kean, Cameron, Clinton, Centre, Union, Snyder, Blair, and Clearfield—24 counties and 43,000 communicants. Rev. James C. Watson, D. D., will convence the new Synod, which will meet at Bellefonte on the 28th of June—Rev. Thomas Creigh, D. D., presiding. The Synod, at its approaching meeting, will re-organize and adjust the boundaries of the Presbyteries included in its territory.

IT seems to be conceded that the dogma of Papal Infallibility will be adopted by the Council in session at Rome. A telegram announces that it will be formally promulgated on the 29th of June, in honor of the feast of St. Peter, after which the Council will take a recess to October 13. The occasion of the promulgation of the new dogma will be celebrated at Rome with a grand display, for which extensive preparations are being made. The effect of the new article of faith on the Church in Europe and America remains to be developed. The American prelates generally oppose its adoption, while in Europe the leading French and German prelates have taken decided grounds against its adoption. The Roman and Italian members of the Council, constituting a majority, have cordially supported the new dogma, and it will be carried mainly by their votes.

A READER of the *Compiler* would hardly suppose that there had ever been a time, in the history of the Adams County Democracy, when they lifted up their longing eyes to the colored man, and begged him to help them. Yet this is true. When the draft impended, they sent two agents to Mississippi to enlist negroes to make up the quota of the County, and thus save themselves the risk of being personally called to defend their country.

The mission failed; but the fact remains. Probably, it was their refusal to put themselves in face of the enemy, to spare the Democracy of Adams, which now so fiercely ravages the organ of the latter, and bids it swear that no colored man shall vote the Democratic ticket.

OREGON voted on Monday for Governor, Secretary of State, Treasurer, State Printer, Congressman, and Legislature. The Legislature elected will choose a Senator to succeed the Hon. George H. Williams. The Congressman will be the first member of the next Congress chosen. In 1868 it gave Seymour a majority of a few hundred and elected a Democratic Legislature.

Telegrams from Portland announce that the election was close—the Democrats claiming the State ticket by a few hundred, and the Republicans the Legislature.

THE Chambersburg *Repository* and Somerset *Herald* both urge the renomination of Hon. John Cessna as the Republican candidate for this Congressional district.

CONGRESS.

LAST Friday the House Committee on Foreign Affairs made a report on the Cuban revolution and the relations sustained to it by the United States.—The report acknowledges the fact that there exists a state of war which Spain has been unable to suppress; that the Spanish volunteers rule the Island, so far as it is not held by the insurgents, and dictate what shall be done by the authorities appointed by the Madrid Government. Outrages and cruelties are committed, unpunished, by them, and American citizens and interests have frequently been their victims.—The report recommends that a strict neutrality be observed by the United States, and that Spain shall be allowed to purchase and ship no materials from our port without the same privileges being granted to the insurgents. It is also intimated that Spain could have no just cause of complaint if the United States should recognize the belligerency of Cuba.

On Friday last, pending the consideration of the new Tax bill in the House, the tax on Incomes was reduced to three per cent., and the exemption increased to $2,000. A motion to strike out the Income tax entirely was rejected, yeas 58, nays 126. A motion to tax the interest on U. States Bonds was also rejected, yeas 78, nays 110.

The Senate on Monday passed a resolution to increase the pay of U. S. Assistant Marshals employed in taking the census to $8 per day, exclusive of mileage.

The House passed the new Tax bill finally on Monday, yeas 155, nays 35, after adopting Mr. Schenck's amendment tacking to it the first section of the Tariff bill. On motion of Mr. Ward, of N. York, the Committee on Ways and Means was instructed, by a vote 118 to 79, to report a bill abolishing all duties on coal.

The new Tax Bill, as passed by the House, will reduce taxation about sixty million dollars—$40,000,000 in direct assessments and $20,000,000 in duties on imported goods. The 35 negative votes were cast solid by Democratic members.

General Garfield's bill to increase banking facilities, and other purposes, occupied the attention of the House the greater part of Tuesday, the Chairman of the Banking and Currency Committee making an elaborate speech in explanation and advocacy of the bill.

On Wednesday, after a long debate, the Currency bill was practically defeated, a motion to adjourn being carried by four majority, the Speaker announcing in advance that the effect of the motion, if adopted, would be to send the bill to the Speaker's table, where it will not probably be reached again this session.

Two noted Indian Chiefs, "Spotted Tail" and "Red Cloud," are being lionized at Washington. Spotted Tail has, in the recent Indian difficulties, been peaceably disposed and has used his influence to keep his own and other tribes from the war-path. Red Cloud is one of the most potent Indian chieftains in the West, exercising commanding influence, and has been the instigator of various Indian massacres. They both visit Washington, with other chiefs, at the request of the President, to talk over the Indian troubles and determine, if possible, some policy that may ensure peace on the borders. Special efforts are being made to impress the Indian warriors with a due sense of the military resources and power of the Government. Red Cloud and his party had an interview with the President a few days, in which [illegible] of the Sioux Indians [illegible] being year by year crowded back by the tide of white emigration, and dispossessed of their lands. He demands that no further roads be constructed nor forts erected in the Indian reservations, and that rations and ammunition be assigned them by the Government. He charges the recent hostilities upon aggressions of the whites and the bad faith of Government agents.

"In Rhode Island white citizens, naturalized, cannot vote unless they own real estate worth one hundred and fifty dollars, but negroes can walk in the polls from the doors of the Almshouse. The Radicals are passing laws to enforce the Fifteenth Amendment, but care nothing for poor white men."—*Copperhead paper.*

When will these wretched fellows stop their lying? In Rhode Island, there is a property qualification, but it applies to *all* voters, white as well as colored. The XVth Amendment does not work a repeal of this property qualification. It merely provides that there shall be no discrimination among voters on account of race, color or previous condition of servitude.

When the XVth Amendment was pending in Congress, it was proposed to change its form and make it broad enough to prohibit all discriminations on account of race, color, *or property*, but the Copperheads united to vote it down. Now they growl because it does not cover the question! Had they honestly co-operated in favor of that principle, it would undoubtedly have been adopted.

THE New York Democratic roughs, at their recent municipal election, played a sharp game at the expense of the newly enfranchised colored voters. In one ward eleven hundred colored men had been registered, but on going to the polls to deposite their ballots for the Republican ticket, they found that over five hundred of them had already been personated by white Democratic repeaters, who cast their votes solid for the Democratic ticket! We have heard of men "stealing the livery of Heaven to serve the Devil," but this thing of stealing the livery of colored men to serve the "white man's party," is a new idea. No wonder the Democracy squirm under the new Congressional enastment to protect the purity of the ballot-box.

SENATOR CAMERON has been selected as the representative of the Pennsylvania delegation to serve on the Congressional Republican Executive Committee for the ensuing year, and the selection guarantees a judicious and effective management of the campaign in the State this fall, so far at least as concerns the agency of the Congressional Executive Committee. Senator Cameron is a shrewd, sagacious politician, and will make his influence felt in the campaign.

THE Richmond Election case goes to the Courts, there being no other remedy for Mayor Calhoon and the Republican candidates ousted by the Board of Canvassers. The better portion of the Democratic press freely denounce the action of the Canvassers in undertaking to nullify the election, and several of the most prominent Democratic lawyers of Richmond have volunteered as counsel in behalf of Mayor Calhoon in the contest before the Courts.

THE House, on Tuesday, adopted the Senate bill to increase the pay of census takers, not to exceed $8 per day.

GOV. GEARY AND THE SINKING FUND.

Gov. Geary has issued an address to the people of the State in vindication of his Veto of the bill passed by the last Legislature to rob the State Treasurer of over nine millions of dollars, to be appropriated to the construction of local railroads, and urging the people to see to it that candidates for the Legislature are publicly pledged to oppose any similar legislation. The address is timely. The snake is only scotched, not killed. There is a large pile of money in the bill, and money has become a potent agency at Harrisburg in controlling legislation. Unless the people take the matter in hand, the outrage may be consummated next session. The nominating Conventions of both parties should see to it that candidates are specially pledged to preserve the integrity of the Sinking Fund.—All candidates not thus pledged should be black-balled at the polls. It is high time the corrupt ring which has for years controlled the Legislature and disgraced the State, should be broken up. The following extracts from Gov. Geary's address present the issue in its true character:

"The State debt must be paid, paid honestly, and to the utmost farthing, as soon as it can reasonably be done. To this doctrine I am irrevocably pledged in every possible manner; and the credit of the State must be kept up to its highest point in order that this important object may be most readily accomplished. No belief or suspicion of bad faith or of profligacy on our part should be permitted to get abroad or to derive the slightest support or countenance from the conduct of our Government in any of its branches. It should be understood everywhere that we have an incorruptible and faithful Judiciary, a Legislature and an Executive disposed to work together and to operate heartily in maintaining the honor of the Commonwealth. The operation of the Sinking Fund was temporarily interrupted, or rather weakened, by the recent war, but by the blessing of Heaven upon the patriotic efforts of the nation, the days of peace have returned.

"There can now be no excuse for diverting from that fund any of the moneys pledged to it by the Constitution and the laws, nor for tampering in any manner with its regular administration; but it is known to you that a bold and daring attempt was made in the Legislature during its last session to invade the Treasury and seize the proceeds of the sale of public works of the State, deposited there in the Sinking Fund, for the use of certain affiliated corporations of this Commonwealth, and that that attempt was defeated only by the interposition of the Executive veto.

"It may again be introduced and passed next winter, or at any subsequent time, without the embarrassment from any prior decision of either House against it, and if the membership of both Houses shall be so made up at any time that a two-third vote for the measure can be obtained in each, its enactment into a law will become certain, and the burden of your taxes will be inevitably increased and prolonged.

"Should you by your indifference to the question, or by a careless and uncalculating choice of the persons to represent you in the Legislature, encourage and strengthen the combination of men who desire and threaten to invade your treasury, rest assured that the vast fund now sacredly devoted to the payment of the public debt will be seized and carried off. The nine and a half millions of dollars of securities in that fund, with all the interest to accrue thereon, will be voted away from the people's treasury. The State credit will be prostrated. Your taxes will be increased, and your Executive will be impotent to help you.

"You are now about to select your candidates for representatives, and should determine [illegible] the nominees the command of the Constitution that no part of said Sinking Fund shall be used or applied otherwise than in the extinguishment of the public debt. You will thus strike a just, severe and timely blow at corrupt legislation, and protect yourselves against grievous pecuniary loss. The lesson will not be lost; its salutary effect will be great and lasting, both for the present and for the future; it will improve the tone of the public morals, repress the unblushing effrontery and corruption of the lobby, curtail the influence of arrogant corporations and secure the sincere commendation of all good and patriotic men."

THE Rebel graves in Loudon Park Cemetery, Baltimore, were decorated on Wednesday by some ladies who hold the Rebel cause in grateful remembrance, Revs. Heaton and Brook, and H. C. Dallam, Esq., delivering addresses on the occasion. At Greenmount Cemetery the grave of J. Wilkes Booth, the assassin of President Lincoln, was profusely decorated. The tomb of the murderer appeared to be selected for special honor, a pyramid of flowers being placed on it.

THE President has nominated Hon. Wayne McVeagh, of Pennsylvania, Minister at Constantinople, to succeed Hon. E. Joy Morris. Mr. McVeagh is a prominent lawyer, a man of unquestioned ability, and will worthily represent the Republic at the Turkish Court.

A CORRESPONDENT of the Bedford *Enquirer*, writing from New Oxford, in this county, urges the re-nomination of Mr. CESSNA for Congress.

AN odd case occurred in the United States District Court in Philadelphia last Friday. The Court had been trying one Sherman for selling counterfeit beer stamps. One of the witnesses, Witeman, a Government detective, testified with great glee that he palmed off upon George Mountjoy a bundle of blank paper which the receiver supposed to be spurious currency, for which Witeman was paid $4,000 in good money. He informed the Court that this was what is known among the detectives as "the Boodle game." Judge Cadwallader was not so much entertained by these disclosures as the deponent expected that he would be.—On the contrary, his judicial wrath was so much excited that he held the shrewd and funny United States detective to bail in $16,000 to take his trial for swindling, and not being able to furnish bonds, the humorous detective was locked up.

DEATH FROM HYDROPHOBIA.—Margaret Dabaugh, a young lady of about nineteen years of age, died in Harrisburg on Sunday afternoon of hydrophobia. She had been bitten in one of her fingers by a dog while passing along the street. The wound was but slight, and having healed, but little attention was paid to the circumstance. On Friday she experienced a pricking sensation in her right arm, extending from the finger in which she had been bitten to the shoulder. The pains continued to increase until Sunday morning when she was thrown into convulsions, exhibiting all the symptoms of hydrophobia. The spasms continued to increase in violence until the afternoon, when death relieved her of her sufferings.

REMARKABLE FREAK OF NATURE.—The Perry county *Democrat* says: On Sunday morning, 23d of May, the wife of Mr. Samuel McConnell, of Toboyne township, this county, gave birth to a child without eyes. Our informant, a gentleman of veracity, says that there is not even the rudimentary semblance of an eye in the place where eyes ought to be. Otherwise the child—a boy—is perfectly formed, stout and healthy.

A MAN named Frederick, died in Montgomery county last week, aged 97 years. He was a democrat, and it is said he wanted to live until another democrat was elected President. That might possibly be in one hundred years—and would make him a very old democrat.

ONE of the staple charges now being brought against the Administration by the Democracy, through their newspapers and conventions, is that of taxing the people unduly. But when the question of abolishing the income tax came up in the House on Friday, the Democratic delegation of this State, headed by Judge Woodward, voted almost solidly against the repeal.

GEN. E. M. Gregory, United States Marshal, has announced the appointment of the assistant marshals for taking the census in Philadelphia. We notice among the appointments *three colored men.* In the 4th ward, J. Purnell, colored soldier; in the 5th ward, J. Underdo, colored soldier; and in the 8th ward, J. W. Cassey, colored soldier.

THE Chinese are said to be remarkably successful agriculturists. Whereas many of the older farms in California have become almost completely exhausted and unproductive, the Chinese residents make the most fertile fields and gardens anywhere, even on the most arid patches of sandy shore. They have books giving full and minute directions regarding every branch of agriculture, and these are followed by successive generations without material change.

NEW YORK.—The full official returns of the New York Judicial election show the following result: For Chief Justice—Selden (Republican), 151,788; for Church (Democrat), 239,685. Majority, 87,897. The vote is about the same for Associate Justices, but owing to the fact that only four could be voted for while six were to be chosen, two of the Republican candidates, Folger and Andrews, are elected. Very little more than half of the full vote of the State was polled.

THE wife of Dr. Getchel, residing in Spruce street Philadelphia was alarmed on Friday during the absence of her husband by a burglar, who was ransacking the parlor. She descended with a revolver and fired at the fellow as he dashed past her. The burglar escaped, but from bloody tracks left behind him his wound must have been serious. He left behind him a number of valuables which he had collected, when compelled to decamp by the courageous conduct of Mrs. Getchel.

CURIOUS CALCULATIONS.—It is calculated that in fifty years a man eats 17,000 pounds of bread, 16,000 pounds of meat, 4,600 pounds of vegetables, eggs and fish, and 7,000 gallons liquid, namely, water, coffee, tea, beer, wine, etc., altogether. It is further calculated that he would make a respectable lake of 800 square feet surface, and three feet deep, on which a small steamboat could navigate. It has not been ascertained of what service to mankind these elaborate calculations have been, or will be; but one can easily understand how much better the calculator could have used his time.

THE MORMONS at Piano, Illinois, who claim to be the true Church, do not recognise polygamy. They have recently addressed a memorial to the President and to Congress, asking that they may not be confounded with the "Latter Day Saints" of Utah in any legislation upon the questions of Polygamy and disloyalty. The memorial presents evidence to prove that the doctrine of plurality of wives was rejected by Joseph Smith and Hiram Smith, the original Presidents, and that the revelation on the subject was not known until 1852, and was then announced in Utah. The paper also contains an epitome of the faith and doctrines of the Piano Mormons, in order, as they say, to place themselves right upon the record, both theologically, socially, morally politically.

THE RINDERPEST.—The Reading *Eagle* says: "Some of the farmers in Greenwich township, Berks county, are considerably excited over the appearance of a strange disease among their cattle, which they fear is the rinderpest. The cattle suffer for two or three weeks, and finally die. Cow doctors in this vicinity are unable to combat the disease, which they do not appear to understand, it being something new in the county. One farmer has lost three cows, and others have lost one or two each. We hope immediate steps will be taken by the Agricultural Society to discover the true nature of the disease, and if it is the rinderpest, to have it checked at once, before it spreads throughout the county."

FROM EUROPE.

LONDON, June 5.—Despatches from the United States announce the receipt there of news of massacres of Jews by Christians in Roumania. No advices have reached here on the subject, and the Continental news agencies deny that there have been any recent outrages upon the Jews in Roumania. A despatch from Bucharest states that a riot occured last week at Botuschaly, a village in Moldavia, during a local election. It is described as an ordinary political disturbance, being quelled without the interference of troops.

PARIS, June 4—The Bourse is excited to-day in view of the new political alliance between Russia and Egypt. A great many cannon,, muskets, and other warlike material have been ordered from Brussels and New York on the Viceroy's account.

A large increase in the armament at the disposal of Egypt is suddenly apparent, and it is now almost certain that the Viceroy is preparing for a struggle against the Sublime Porte, and that Russia will lend him her aid.

MADRID, June 5—Espartero has written a letter stating that he will refuse the crown of Spain if the Cortes shall decree it to him. The Englishmen captured by brigands have been rescued, and have arrived at Gibraltar.

The proceedings in the Cortes yesterday were highly important. Almost the entire session was devoted to the question of the consideration of the question of the future ruler of the country, and at length a proposition was made by one of the members that no candidate for King should be considered finally elected unless he received a majority equal to one-half the full number of Deputies in the Cortes. Amid the most enthusiastic applause, it was resolved by a vote of 106 to 98 to take the proposition into consideration, and the Cortes then adjourned. This vote is very significant, and is regarded as equivalent to a defeat of the Duke of Montpensier, who has only 89 votes in the Cortes, and who, if this amendment is adopted, will require 179 in order to be elected.

CONSTANTINOPLE, June 9—Yesterday about one o'clock a fire broke out which spread with alarming rapidity through the richest quarters of they city. The flames were first discovered in an old building in the Pera, on the north side of the Golden Horn. A strong wind was blowing, and the fire quickly communicated to the adjoining buildings. The efforts of the firemen and citizens to stop the flames were futile, and in a few hours the residences of English, American and Portugese Ambassadors and consulates, the Nsom Theatre, many churches and mosques, thousands of houses and the richest stores and shops in the city were reduced to ashes. The loss of life by falling walls is fearful. It is estimated that at least thirty people have been killed or injured by this cause alone. The loss is incalculable. The fire at this hour (noon) still burning fiercely, and the excitement of the people beggars description.

CONSTANTINOPLE, June 6—Evening.—The conflagation has been checked. Though the flames are still raging fierce by at some points, they cannot spread, houses having been blown up and the fire isolated. The loss of property is immense, as the burnt district includes one of the wealthiest and best built quarters of the city. All the archives and plates of the British Legation were saved.

ROME, June 5—Midnight.—The discussion of the dogma of infallibily was closed amid great confusion, the debate being forcibly ended.

The distinguished Bishops who were appointed to speak in opposition to the *schema*, and who are among the most profound and able debaters in the council, were summarily ruled out of the debate and prevented from participating in any way in the discussion.

They were loud in their protestations, and it is asserted will issue a formal protest against the arbitrary manner in which the debate was closed.

The opposition were totally unprepared for this manner of procedure on the part of the Ultramontanists, and their indignation at the defeat of their tactics for maintaining a stubborn opposition to the adoption of the *schema* is very great.

The excitement in Church circles is intense, and the opposition seems to gain strenth from the efforts of the Ultramontanists to crush them.

The Great Powers are undoubtedly watching with keen anxiety the various phases and developments of the contest. Through their diplomatic representatives at the Papal Court they are immediately informed of the important events transpiring in the Council. As an evidence of the watchfulness with which these movements are regarded it is officially stated that the Prussian Government, through its ambassador, Herr D'Arnhim, has tendered to Cardinal Autonelli a diplomatic note containing a notification that his Government is prepared to resist the introduction of any ecclesias ical disturbing element, and that if any of the proceedings of the Council are of a character calculated to cause difficulties between the Government and the clergy, immediate steps will ensue forbidding them to have any official intercourse with the Holy See.

MADRID, June 6.—A great manifestation in favor of Espartero for King of Spain was made by his adherents in this city yesterday.

ROME, June 7.—The Augsburg *Gazette* says the American delegates in the Ecumenical Council show a growing disinclination to the Papal infallibility dogma.

BERLIN, June[illegible]7, 2 P. M.—M. Benedette, the French Minister to Prussia, has ten to the Prussian Foreign Office an official communication relative to the course of Prussia towards Rome.

The French government approves of and sympathizes with the action of Prussia in warning the Council against the introduction of any ecclesiastical disturbing element calculated to cause difficulties between the government and clergy.

The French note declares if the Pope neglects to notice the admonition of Prussia and other powers, France will be compelled to act according to the dictates of protection to her own interests.

ROME, June 7.—The fathers opposed to infallibility have presented an address to the Pope through Cardinal Legate, remonstrating against the violent proceedings by which the meeting of the 3d instant was dissolved and the debate on the preamble of the schema brought to a close. They complain that fifty members who had given notice of their intention to speak remained unheard, among them Monseignour Dupanloup, and protest against the vote by which the debate was terminated, declaring that it was carried by surprise. The address received the signatures of one hundred men.

A NOTABLE INCIDENT.—The respect of the President for the memory of his fallen comrades, as well as dislike of even appearances of ceremonious display, were illustrated the other day, on the occasion of the decorative ceremonies, at Arlington, after a majority of the spectators had left the cemetery. The President and Mrs. Grant proceeded in their carriage to a comparatively retired section of ground, where the President devoted some time to strewing the graves. His movements were remarked, however, by a few lingerers at the graves of departed relatives or friends, and thus the incident became known.

MAJOR B. B. French, the efficient chief of the division of long accounts, in the Second Controller's Bureau, has tendered his resignation to Secretary Boutwell, to take effect on the 30th instant.

OUR STREETS.

MESSRS. EDITORS:—It is a self evident fact that some of the streets of Gettysburg are a disgrace to the town, and an outrage upon the tax-payers and property-holders. The worst is Chambersburg street. That thoroughfare, used more perhaps than any one street in the place, is a succession of mud-holes from one end to the other, and it is only with the greatest difficulty that vehicles can pass along it at all. That it should be speedily put in better condition, is admitted by all—that it is not done at once, throws the conduct of the Town Council open to criticism of a highly uncomplimentary character. Just look at it for a moment. Whilst one of the most prominent thoroughfares has been entirely neglected, the Council are expending large sums in grading and opening streets that are not required at present, especially the cross-street, *out in the country*, beyond the new Preparatory Department, and employing carts and men there in a manner that is simply *wasting* the funds of the Borough.

But, it may be said, the Town Council are not to blame—that the Springs Railway Company tore up the pike and made Chambersburg street what it is. Is that the case? With the exception of about half a square at the west end of the street, the pike was not disturbed further than was necessary to lay the ties, and the same stone were again used in filling up the spaces between the ties and stringers. Nor is the railroad track now the worst part of the street; for the mud-holes are formed only along its sides, and if these were filled up, and the street from the water-ditches to the track properly macadamized, the evil would be remedied. If the Railway Company have not used as good material on their road as may be desirable, it is but candor to say they have at least shown a disposition to do what is right, and they will doubtless see the propriety of using harder stone when they find that their present repairs are only temporary. Whatever their short comings may be, they do not in any way serve as an excuse to the Town Council for entirely neglecting this prominent thoroughfare, and wasting the Borough funds in opening streets that will be of little or no use for some time to come.

CELEBRATION AT EAST BERLIN.

As announced in the previous "STAR AND SENTINEL," a parade of "Washington Camp No. 21 of Patriotic Order Sons of America," took place at East Berlin on Monday last. Although the morning proved unfavorable, Camp meet at their hall at 9 o'clock and held a session of Camp.

By noon groups of persons were rising the streets and vehicles filled with visitors enlivened our usually quiet village. Camp again met at 12½ o'clock. By 1 o'clock the Hall was crowded to almost overflowing. The side walks of the town were so much crowded as to be almost impassable.

Camp formed in procession under direction of L. S. Trostle, Chief Marshal, and paraded through the principal streets, accompanied by the best martial music that could be procured in Adams or York Counties.

Camp 21 was acknowledged by all to have made the grandest display of any organization ever before held in the county.

In advance of the procession was carried a Banner with a portrait of Washington very handsomely decorated with evergreens. In the middle of the procession was the Camp Altar, beautifully decorated with the National Emblems, upon which lay an open Bible, being carried by four small boys.

The procession, after having marched through the principal streets, repaired to the church, which was already crowded, many being unable to gain admittance. The exercises were opened by the Camp singing "My Country 'tis of thee," followed with prayer by Rev. W. J. Davis. H. H. Hall, being introduced, addressed the audience, referring to the organization of the Order, and explaining its principles in a most able, eloquent, and appropriate manner, which was highly appreciated; after which Camp sang one of the odes of the Order, during which a collection was taken up for charitable purposes to be appropriated for the benefit of any one in destitute circumstances, whether members of the order or not. Rev. W. F. P. Davis then followed with appropriate remarks descanting upon the merits of secret organizations, especially such as have for their principles Virtue, Patrotism, and Benevolence. The whole audience then joined in singing the Old familiar Doxology "Praise God from whom all blessings flow." The Benediction being pronounced, the audience was dismissed, and Camp returned to their hall.

Camp 21 was installed on the 14th of August, 1869, consisting of 12 members, and now numbers upwards of 60 members.

IMPORTANT TO TEACHERS AND DIRECTORS.

Boards of Directors throughout the County are respectfully requested to send in the Annual Reports and Certificates, as soon as practicable. In the Districts, in which Teachers have been employed for any portion of time, who did not at the time hold a valid Certificate, the Boards are requested to give any circumstances connected with such illegal employment. I will thus be enabled to forward a full statement of the case to the Department at Harrisburg, and present the District's claim for its share of the Appropriation, if there be extenuating circumstances.

All Professional Certificates, not given during the past year, expired by law on the first of the present month. I have already been asked a number of times to renew Certificates of this class. To place all on an equality, I desire to announce that no Certificates will be renewed. There are forty-six Professional Certificates in the County, which were granted by my predecessor, and which have expired with the commencement of the present school year. Were I to renew any, all others would have an equal claim.

County Superintendent.

A PLEASANT SURPRISE.

The Reformed congregation of New Oxford had quite a pleasant surprise on Whit Sunday morning. Whilst they were celebrating the Holy Communion, the writer of this article had the honor of presenting to the congregation a very handsome Silver Communion Service, in the name of Mr. F. G. Stark, the well known Jeweler of Hanover, consisting of a large beautifully ornamented Chalice, a Communion Cup with the inscription, "This is my blood," and a Plate with the significated declaration of our Lord, "This is my body;" also, in addition to the Communion Service, a magnificent Baptismal Cup, with the appropriate inscription, "With water and the spirit." All were gotten up in very fine style. The engraving was artistically executed and reflects much credit upon the donor's mechanical ingenuity as well as his kind liberality. At the same time the writer had the honor of presenting a very fine Linen Cloth, for Communion purposes, in the name of Miss Lizzie Myers, a member of the congregation.

We would assure all whom it may concern, that the Reformed congregation, with their pastor, not only highly appreciate these gifts, but are truly grateful to the much esteemed donors, and pray that the Great Head of the Church may abundantly reward them for this worthy act of respect.

NEWS OF NEIGHBORING COUNTIES.

CARROLL.—McKendry Weaver, of New Windsor, on Sunday a week, committed suicide, by shooting himself with a pistol. He left a note giving "remorse, desertion of friends, and want of employment," as the cause.

CUMBERLAND.—Jacob S. Wolf has been appointed Postmaster at Good Hope, *vice* C. F. Stover resigned.—Rev. Dr. Harman, of Baltimore, has been elected Professor of Ancient Languages at Dickenson College.

FRANKLIN.—The Republican County Convention has been called for the 9th of August.—E. Hiteshew has purchased from John Seilhamer a house and lot on South Front street, Chambersburg, for $1600 cash.—The store-room of Bert & Brother, Mercersburg, was entered by burglars on the night of the 2d inst., and a lot of knives, jewelry, &c., carried off.

FREDERICK.—The ratification of the 15th Amendment was celebrated at Frederick on Monday by procession, &c., speeches being made by John M. Langston, Isaac Myers, and Col. G. W. Z. Black.

YORK.—George B. Thomas has been appointed Postmaster at Thomasville, *vice* E. Spangler resigned, and M. B. Leas Postmaster at Mount Royal, a new office.—The ladies of the Reformed Church, Hanover, recently re-furnished the parlor of the new parsonage, as a testimonial of esteem for the pastor, Rev. W. K. Zeiber.—The following gentlemen have been elected Directors of the Hanover Mutual Fire Insurance Company: George D. Klinefelter, Henry C. Schriver, Joseph Althoff, Edward Bair, Samuel Michael, John P. Stine, Anthony Brockley, John D. Trimmer and William Soladay.—Francis Weisensahl, aged 26 years, residing half a mile west of Hanover, died suddenly of heart disease on the 31st ult. He had just eaten a hearty breakfast and sat down on a chair near the stove. His wife left the room for a few minutes and on her return found him lying on the floor dead.—The Hall of "Friendly Circle No. 19 B. U. (H. F.) C. A.," Hanover, was dedicated on Monday, followed by a parade of member of the order in regalia.—Rev. E. O. Forney, of Hanover, has accepted a call from the Reformed Congregation at Shepherdstown, Va.—A son of Charles Routson, aged 12 years, Heidelburg township, while attempting to catch a pigeon in his father's barn, fell from a rafter to the floor, fracturing his thigh.—The Hanover *Citizen* says that place was made somewhat lively on Whit-Monday, by sundry free-fights between parties who had imbibed too freely. —Dogs and cattle in various portions of York county have lately given evidence of hydrophobia. Last week a bull belonging to Michael Sechrist, Manchester township, had to be killed.

A VERY curious fact has been noticed by the telegraphers on the Island of St. Pierre, Miquelon, which is the terminus of the ocean section of the French Atlantic Cable. There are two telegraph stations there, one belonging to the French Transatlantic Company, and employing exceedingly delicate instruments; the other belongs to an American company, which receives messages from Newfoundland and then transmits them to Sidney. This line uses the Morse signals and a powerful battery. The instruments of the French company, it was found, were seriously disturbed by earth currents, the cause of which was at first a mystery. It was afterwards found out that the great battery used by the American company charged and discharged the whole island as if it were a Leyden jar. It was further discovered that by a proper manipulation of the French instruments every message sent by the American Company could be read in the Transatlantic office, the only connection between the lines being the earth.

A TRAP THAT MANY OF OUR STOREKEEPERS HAVE FALLEN INTO.

Buying their queensware, glassware and general supplies in the cities, where the expenses are multiplied five fold.

WM. BLAIR & SON have an immense stock of goods, and are positively selling at such trade their whole line of goods at from five to twenty-five per cent. less than they can be brought from abroad.

WE KNOW some of our storekeepers are paying twenty cents per inch more than our prices for salt; three cents more per keg for best coffee; fifteen to twenty per cent. more for wares; two or three cents per gallon more for coal oil, and in few instances letting the quality of goods we sell. Our advice is, buy near home; in small quantities; sell at lower prices, and make more money. Try it.

The town Council has appointed Wm Guinn Street and Road Commissioner for the Borough.

SALE.—On Tuesday, Wm. McSherry, Assignee of Moses A. Keller, sold the Foundry and Machine Shop, in Littlestown, at public sale, to John H. Miller, Joseph Barker, and John Diehl, for $8,075.00.

Messrs. Bigham & Co have sold the stock and fixtures of their Warehouse to Messrs. George F. Kalbfleish & Sweltzer Brothers, to take effect July 1st.

FLORAL EXHIBITION.—We acknowledge the curtesy of a complimentary ticket for the 2d annual Fruit and Floral Exhibition, to be given by the Franklin County Horticultural Society, in Chambersburg, on the 10th and 11th inst. The Hall will be handsomely decorated and a fine display of Fruits and Flowers is anticipated. On Saturday evening a Strawberry Festival will be held by the Society.

A WOLF.—There is a rumor current that a wild animal, supposed to be a wolf, has, by some means or other, found his way to the "Pigeon Hill," in the vicinity of the Codorus Creek and near York road, some six or seven miles from this place. The animal is said to be very large and bold and not easily scared, and has created quite a panic in the neighborhood. A number of persons assert that they have seen the animal, and the description they give of it, would confirm the report that it is a wolf.—*Hanover Spectator.*

SCHOOL ITEMS.—The new School Board of this place organized on Wednesday evening, by electing H. Warren, President; Dr. E. G. Fahnestock, Treasurer, and John M. Krauth, Esq., Secretary.

The Board will meet on the 1st day of July next, to elect teachers for the Public Schools, on which day the County Superintendent will examine applicants.

The Board desire to procure the services of a collector and will receive applications until Friday, June 17th next.

STRAWBERRY FESTIVAL.—We are requested to state that a Strawberry Festival will be given on Wednesday evening next, (the 15th inst.,) at Fairview School house, Straban township, on the Hunterstown road; the proceeds to be appropriated to securing a Library for the Sabbath School held at that place.

The ladies of the Reformed congregation of this place will give a Strawberry Festival, in Agricultural Hall, on Friday evening, and Saturday afternoon and evening, of this week. The proceeds will be for the benefit of the Sabbath School connected with the church.

OUR STREETS.—A correspondent in to-day's issue complains bitterly of the condition of Chambersburg street, and raps the Town Council somewhat sharply. The condition of that thoroughfare is questionably is discreditable to the Borough and the complaint should be promptly remedied. The fault lies between the Turnpike Company, the Passenger Railway Company and the Town Council. The latter have supreme control of the streets, and should see to it that they are put in order, doing whatever repairs are legitimate to the Borough, and if needs be, the requisite steps to require the corporations using the street to do their full share.

DELEGATES.—The State Sabbath Shcool Convention will meet in Harrisburg on next Tuesday, remaining in session three days. A number of the best Sabbath School workers of the State will be present, and the sessions will be important and interesting. The following delegates have been accredited by the Schools in this place:—St. James, Lutheran, E. G. Breidenbaugh and J. S. Detwiler; Methodist, J. A. Cluts; Reformed, Miss Annie Danner and Thos. J. Stahle; Christ Church, Lutheran, Mrs. Prof. Croll, Miss Julia Jacobs, J. L. Kendlehart and E. J. Cox.

The Oak Ridge Union Sabbath School (Huntington township) has appointed Jacob B. Miller and Miss Tillie Wierman delegates.

SHERIFF'S SALES.—On Saturday last Sheriff Klunk sold the following Real Estate, as advertised:

15 Acres, with improvements, in Huntington township, property of John Meg*ary*, for $625—purchaser Samuel Welcome, of Tyrone township.

75 Acres, with improvements, in Oxford township, property of George Smith, for $4,310—purchaser John Mo*yer*, of Oxford township;

Three Lots in Abbottstown, with improvements, property of Jesse Asper, for $600—purchaser Wm. Haffer, of Abbottstown.

The interest of Peter Culp in a Lot of ground, with improvements, in Gettysburg, for $20—purchaser Stuart W. Hoffman. Property claimed by Mrs. Culp.

CONFIRMED.—Some time ago the Town Council ordained the opening of a Public Alley to extend from North street, opposite the Passenger depot, parallel with Carlisle street, to the Harrisburg road. Viewers were subsequently appointed by the Court of Quarter Sessions to assess damages, &c., whose report was confirmed absolute on the 29th of March. Damages are ordered to be paid as follows:

To Col. C. H. Buehler,	$350
" Robert McCurdy,	100
" Rev. C. J. Ehrehart,	20

The viewers also assessed the following damages to be paid by property owners along the line of the alley towards its opening:

By Mrs. Wible,	$20
" George L. Kalbfleish,	20
" J. L. Schick,	40
" Rev. S. Smith	30
" Mrs. Crawford,	20
" Jacob Shade,	60

INTERESTING TO THE LADIES.—The Board of Health, of New York, appears to be a live organization. It turns its attention in various directions, all in the interest of the public health. The latest investigation has been in the direction of hair dyes. At the request of the Board, Prof. Charles F. Chandler has carefully examined the composition of a large number of "hair restoratives" or washes, and of cosmetics, freely sold and largely used, and has made an elaborate report, in which he shows that, "with very few exceptions, the hair tonics, washes and restoratives contain lead in considerable quantities; that they owe their action to this metal, and that they are highly dangerous to the health of the person using them;" and that, "the enamels are composed of either carbonate of lime, oxide of zinc, or carbonate of lead, suspended in water. The first two classes of enamels are comparatively as harmless as any other white dirt when plastered over the skin to close the pores, and prevent its healthy action. On the other hand, the enamels composed of carbonate of lead are highly dangerous, and their use is very certain to produce disastrous results to those who patronize them." These facts will be found suggestive to physicians, who may find it useful to inquire how many of the obstinate and obscure causes of disease, in which their best efforts seem to be useless and in which life is made a burden, are really the consequences of persistent lead poisoning, inflicted on their patients by themselves. They ought to be suggestive to persons who, in their ambition for a beautiful complexion, do not hesitate to plaster deadly poisons on their skins; but without venturing on such dangerous ground as this, it is at least fair to suggest to amorous youths that, if they do not wish to destroy their own health, they had better avoid all contact with cheeks and hair which are "improved" from nature, and that a kiss from "enameled" beauty may be almost as deadly as the bite of a venomous serpent.

RAILROAD MOVEMENTS.—The proposed Railroad from Oxford, Chester county, to Hanover Junction, through the southern portions of Chester, Lancaster and York counties, is still being agitated. At a meeting held at the Union Hotel, Lancaster county, on the 28th ult., the route was determined from Oxford, passing near Hopewell, Pine Grove, King's Bridge, Smedley's Mill, Centerville and along Fishing Creek. It was announced that $100,000 had been subscribed in York county, and that the location of the route would give new impetus to the movement. Meetings are to be held at other points along the proposed line, and much confidence is felt in the success of the enterprise. If this road be built, there will be direct railroad communication with the seaboard, as the railroad connection to Oxford, Chester county, is already complete.

Another meeting was held at New Freedom, York county, on Saturday last, in behalf of the New Freedom & Kachman's Valley Railroad. A detailed report was submitted by Joseph S. Gitt, Esq., Civil Engineer, who estimates the cost of construction, including grading and laying of track, at $165,484.20 for 14½ miles—being an average of $11,609.45 per mile.

ELECTION.—The annual election for officers of Ever-Green Cemetery, on Tuesday evening, resulted in the unanimous re-election of the old Board, viz:

President—J. L. Schick.
Secretary—William B. Meals.
Treasurer—Alexander Cobean.
Managers—John Rupp, J. L. Hill, Josiah Benner, George Spangler, George Little, William B. Meals, Alexander Cobean.

The annual report makes the following exhibit of the finances of the corporation for the year ending June 6, 1870:

COPPER ORE.—Mr. D. B. Russell, of Waynesboro, not long ago bought a tract of land containing upwards of four hundred acres and lying near Mooteroy Springs, from the heirs of a Mr. Watson. Some fine specimens of copper ore have been taken from the land. Some of them were sent to Philadelphia in March, and on examination were found to contain eighty per cent. of copper. The *Village Record* says: "Twenty-eight years ago, we are reliably informed, a party from the East were prospecting there for ore, and at the depth of forty feet reached a vein several feet in thickness. It appears the party failed to comply with an article between themselves and Mr. Watson, and the latter, being a peculiar individual, refused to lease or sell the land during his lifetime. The same party sunk a second shaft, in which was found copper, lead and silver ore. This land lies within about one hundred yards of the old "Tape Worm." That ore in large quantities abounds there, there is scarcely a doubt."

ORGANIZED.—The New Oxford building Association has organized under an excellent corps of officers, giving promise of efficient management. The Charter provides that after the first year the premium on money sold by the Association shall not exceed 20 per cent. The following are the officers:—President W. D. Himes; Vice President, Dr. J. W. Hendricks; Secretary, Dr. W. J. McClure; Treasurer, Abraham Shoely; Attorney, W. A. Duncan, Esq.; Directors, J. C. Zouck, A. S. Himes, Wm. D. Emmert, Austin Staub and ——Gubernator.

If you want a new Hat or Cap, of the latest style and best material for the smallest amount of money, go to Col. S. S. McCreary, on Chambersburg street, whose good taste and judgment as a practical hatter give him large advantages in meeting the wants of customers. It

TO FARMERS.—As the time is at hand for buying Reapers and Mowers, Farmers should examine well before buying and buy nothing but that class machine which as they know to be durable, and do good work in all kinds of grain and grass. They will find in the machines sold by Mr. WM. WIBLE, all these points combined, as the machines he offers have been in use for several years and have given entire satisfaction. Also a few good second hand Machines on hand. It

SAVE MONEY.—Pending the agitation of the Funding Bill, which will evidently depreciate Government Bonds, persons would do well by reading the advertisement of the "Gettysburg National Bank," in another column, and exchange their Government Bonds and realize a handsome profit thereby, and obtain an investment as safe and profitable. tf

GRAIN CRADLES.—Greencastle manufacture—decidedly the best in use—three styles on hand—prices reduced. For sale by R. SHERRY, 1½ miles south of Gettysburg. June 10-tf

A GOOD INVESTMENT.—The High per cent. gold bearing bonds of the St. Joseph and Denver City Railroad Co. See advertisement in another column. It

FOR RENT.—Several desirable Rooms in south-east corner of the diamond, the late residence of Hon. R. G. Harper, deceased. For terms, &c., inquire of Mrs. HARPER.

CARLISLE DISTRICT CAMP MEETING.—We learn that the Camp meeting for the Carlisle District, Methodist Episcopal Church, will be held near Hunter's Run Station, on the South Mountain Railroad, commencing August 3d and continuing until Friday morning August 12th. The woods in which the meeting will be held are located along the Carlisle and Gettysburg road, about sixteen miles from the latter place. It is expected that the denomination in this and the adjoining counties will be largely represented. Several hundreds of tents will doubtless be occupied on the ground and thousands will be in attendance.

The grove is a pleasant one—the adjacent roads are good—the water is delightful—railroad facilities will be provided, and boarding and lodging tents will be prepared for the accommodation of the crowds of visitors and sojourners. We hope it will be really "a feast of tabernacles."

GETTYSBURG ZOUAVES.—Will meet for Drill and Parade on Saturday, the 11th inst., at one o'clock, sharp. Every member is expected to be present in full Dress Uniform, with arms and accoutrements in good order.

By order of the Captain.

WM. D. HOLTZWORTH, O. S.

COLDS AND COUGHS.—Sudden changes of climate are sources of Pulmonary and Bronchial affections. Experience having proved that simple remedies act speedily when taken in the early stage of disease, take at once "Brown's Bronchial Troches;" let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be warded off.

Owing to the good reputation and popularity of the Troches, many worthless and cheap imitations are offered which are good for nothing. Be sure to obtain the true "Brown's Bronchial Troches." Sold everywhere. It

More than one hundred thousand persons annually die in this country from Consumption, which is but the child of Catarrh. $500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy, for a case of Catarrh which he can not cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, Buffalo, N. Y., and get it by mail.

HOW TO LOOK YOUNG—SIXTEEN.—Don't paint or use vile Restorers, but simply apply Hagan's Magnolia Balm upon your face, neck and hands, and use Lyon's Kathairon upon your hair. The Balm makes your complexion pearly, soft and natural, and you can't tell what did it. I removes freckles, tan, sallowness, ringmarks, moth-patches, etc; and in place of a red, rustic face, you have the marble purity of an exquisite belle. It gives to middle age the bloom of perpetual youth. Add these effects to a splendid head of hair produced by the Kathairon, and a lady has done her best in the way of adornment. Brothers will have no spinster sisters when these articles are around. june3-1m

REV. ISAAC COLLINS, a Methodist clergyman of Baltimore, died recently. He has been a preacher of the gospel for upwards of sixty years. He served under Gen. Harrison on the lakes in 1812, both as a soldier and a chaplain. He subsequently participated in the battles of Bladensburg and North Point, and was near the British General Ross when he fell at the Battle of North Point, in 1814. Mr. Collins was a preacher of nearly sixty years standing, and was widely known among the Methodists of Pennsylvania, Virginia and Maryland.

THE more hostile Democrats become to the colored voters the more marked is their affection for white Republicans. Their newspapers are filled with solicitations to come over and vote with them. It is a little strange though that their hospitality ends here. They dont invite any one to come into their conventions to nominate tickets, nor do they propose to elect any of them to office. It seems to be the old story of the turkey and the crow. They don't talk turkey to the Republicans at all.

EARTHQUAKE AT OAXACA, MEXICO.—A despatch from Havana, says that a violent earthquake has visited the State of Oaxaca, which was especially destructive in the city of Oaxaca, the capital of the State. One hundred and three persons were killed and fifty-three wounded. A third of the city was rendred uninhabitable. The earthquake extended to the mines, where eleven men were killed and many wounded. Buildings in all parts of the State were destroyed, and reports of additional deaths are coming in.

REPAIRS ON THE FARM.

The *Journal of Agriculture* contains valuable hints upon a subject which is of very great interest to every farmer —the repairs on the farm:

These ordinarily cost more than most farmers would be willing to admit, and in many cases three times as much as they need to, for the reason that the team is stopped, and a hand sent to the mechanic, several miles away, to get some little job done that any farmer of ordinary ingenuity could do in half the time the messenger is gone to the mechanic's, if he had a few tools, and a little of the proper kind of material.

The thrifty farmer will always lay aside pieces of timber of different kinds, to be used for repairs. These he often finds in his wood pile, and he lays them up where he can get them or send a boy for them at any time. He will also have a box of screws of different sizes, with a good screw driver and several gimblets. That first and last of all carpenter's tools for the farmer, the drawing-knife, will be at hand; also, a little box of different sizes of bolts, with nuts and washes to match; a brace and good set of auger bits, from three-eighths to seven-eighths, and three augers, one inch and a half and two inch. These, with a hand-saw, make a very respectable kit for a farmer, and if he has any skill at all in using them, he will sometimes save much more that the cost of them in a few months.

Last any farmer who has been accustomed to run to the shop for every little repair, supply himself with such things as we have named and do his own repairing, and he will be agreeably surprised at the difference in the mechanics' bills.

Then there are the harnesses. If the farmer uses several of them, he can save several dollars in the course of a year, by having on hand two or three awls, a shoe knife, a ball of shoe thread and a ball of wax, all of which will cost less than a dollar, and will last several years.

HISTORY OF THE MERCER POTATOE.—In the year 1802 Mr. John Kilkey of Mercer county, Pennsylvania, living along Neshanock creek, planted a quantity of blue, red white and other varieties of potatoes, from the product of which he selected the above named variety, which at first were called Neshanocks, after the creek near which he lived. They were soon after brought into notice by the name of *Mercer* and cultivated near Philadelphia, from thence spread over the whole country, and for a long time more generally cultivated than any other variety, but of late years has been rather on the decline, and other new varieties have been introduced, but none of which has attained the celebrity of the Mercer, which was almost universally planted for nearly half a century, owing to its superior edible qualities and productiveness. It may be a long time before any one variety of this valuable esculent to man will attain the prominence of the noble Mercer, which although having had its day, is still the favorite with a large number of people.

HOOVEN OR BLOAT IN CATTLE.—At this season of the year, many cows are lost from hooven. I will give a short chapter from my own experience, some years ago I turned my cow into the clover field in the morning, while the grass was wet with dew. She soon became bloated, and to all appearance, there was danger that she would shortly die if not soon relieved. A near neighbor told me to run a knife into her and let the wind off the stomach. I was not experienced in this sticking business, and declined following his advice. But I hastily forced her mouth open, and put a club in it. By the smell of the breath, I knew the gas in her stomach had commenced escaping I then tied a piece of hickory bark to each end of the club, and passed it over the head and behind the horns and then together.—In half an hour my cow was perfectly well. The remedy is as sure as it is simple. Try it,

Two years ago one of my neighbors let his two only cows die in a few minutes, by not knowing this simple cure. —*Cor. Cin. Gazette.*

USE YOUR OLD THRESHING MACHINES.—A great many farmers have old threshing machines which may be put to good account. A correspondent says:

"Last harvest, when the time came for grinding up my mowing machine knives and cradling scythes, there was, of course, a great deal of growling at the thought of turning the grindstone and having blistered hands. I thought I might possibly save some labor, and I accordingly took my grindstone and attached it to the shaft running from the large wheels to the pit-wheel of the threshing machine. Or, in other words I made a wooden shaft, and after taking off the crank, joined the two together. This was easily done, I then put a horse to one of the sweeps, and the knives and scythe were all ground by horse power, and that in a very short time. The boys who did the turning were delighted with the labor saving machine, and gave me a hearty vote of thanks for my invention.

WHETHER hogs require sulphur as an essential to their health, or whether it is sought by them as a condiment, may not be known for certainty. But one thing is sure, they devour it with greed whenever it is to be found. It is for this purpose, probably, that they eat large quantities of soft coal, which contains a large amount of sulphur. Perhaps this is the economical method of supplying hogs with sulphur during the winter, when they require a great deal of carbon. But in the summer it is better to feed it to them in substances which contain less carbon, on account of their producing less heat.

COSTIVENESS IN HOGS.—Give half a pint of lard melted in a pint of new milk. Put the lard and milk in a tin dish, set on the stove and heat until the lard is melted. Administer warm. This will in most cases effect a cure in short time.

THROAT DISTEMPER IN HORSES.—Take devil's bit, or wild turnip, if green, grate a small one fine; if dry, a heaped spoonful, mix it with wet bran or oats. This repeatedly given, has never been known to fail. It is also a certain cure for a cough.

LAMPAS IN HORSES.—Colts affected with the lampes may have the palate lanced, which relieves inflamation of the swollen part. Where there is not much swelling, apply to the palate a solution of alum—a teaspoonful to half a pint of water.

ONE or two applications of buttermilk will destroy lice on cattle.
